Enjoy Preferred Comfort

Bringing You Peace of Mind Since 1904

American homeowners have learned that when it comes to comfort you can count on, Bryant does whatever it takes. That's why they've put their trust in Bryant for indoor comfort, superior quality, and peace of mind since 1904. We've built our reputation with a commitment to excellence every step of the way from initial product development to final assembly and testing. Today, as consumer expectations for enhanced comfort and performance continually evolve, Bryant responds with products like the Preferred™ Series Fan Coils.

A Bryant Preferred Series fan coil helps your heat pump offer the exceptional comfort and high efficiency of variable speed operation. The Model FV4 is specifically developed for use with environmentally sound Puron® refrigerant.

Designed, built and backed by the most reliable source for comfort and installed by your trusted local Bryant dealer, a Preferred Series fan coil is an excellent choice for efficient, consistent comfort you can trust.

Enjoy Higher Comfort, Lower Energy Bills

The Bryant Model FV4 fan coil delivers quiet, consistent and energy-saving comfort with variable speed operation. You'll enjoy a nearly continuous stream of conditioned air that helps eliminate hot or cold spots throughout your home, allows for cleaner air

through nearly continuous filtration, and saves money with its energy-conserving low speed operation. For continued savings with constant fan operation, you can run the fan continuously to improve ventilation and indoor air quality with minimal energy use.

Feel the Comfort of Perfect Heat™ Perfect Humidity™

As a part of your heat pump system, a Bryant Model FV4 fan coil delivers superior comfort all year long. And, when installed with Bryant's patented Thermidistat™ Control, you can give your comfort a lift with the extra-warm, extra comfortable Perfect Heat™ and Perfect Humidity™ functions. Perfect Heat can output heated air that is up to 20 degrees warmer than standard heat pump systems so the air coming from your vents will have a warm, cozy feel you'll truly appreciate. With

Perfect Humidity, you can enjoy the comfort and savings provided by up to 30 times the moisture removal of standard heat pump systems during cooling operation.

from Your Bryant Heat Pump System

Warranty

To the original owner, the Bryant Model FV4 fan coil is covered by a 10-year parts, excluding the coil, limited warranty upon timely registration of your new equipment.* Copper coil is covered by a 5-year parts limited warranty. Ask your Bryant dealer about optional extended warranties, which may include labor.

*Warrant period is 5 years if not registered within 90 days. Jurisdictions where warranty benefits cannot be conditioned on registration will automatically receive a 10-year parts limited warranty. See warranty certificate at bryant.com for complete details.

Performance

Environmentally Sound Puron® Refrigerant

The Model FV4 uses environmentally sound Puron® refrigerant. For many people, that's an important consideration because Freon®-22*, the refrigerant most commonly used in fan coils, is gradually being phased out of existence due to concern over the Earth's ozone layer. By choosing the Model FV4 with Puron refrigerant now, you are helping preserve the ozone layer with a product offering all the comfort of variable speed operation and the reliability of our Puron family of products.

*The registered owner of Freon is E.I. DuPont de Nemour & Co.

DuraCoat™ Protection for Peace of Mind

Premature indoor coil corrosion affects many home comfort systems. To combat this potential problem, Bryant offers optional DuraCoat™ protection. DuraCoat provides a tin plating of the indoor coil's copper hairpins. This creates a barrier between the corrosion-causing elements and the coil. No other manufacturer in the industry presently has an acceptable solution for this specific indoor coil corrosion issue, making Bryant the choice for worry-free comfort.

DuraCoat™ Warranty

To the original owner, the Bryant Model FV4 fan coil is covered by a 10-year parts limited warranty upon timely registration of your new equipment.* Tin plated Duracoat™ coil is covered by a 10-year parts warranty. Ask your Bryant dealer about optional extended warranties, which may include labor.

*Warranty period on parts is 5 years if not registered within 90 days. Jurisdictions where warranty benefits cannot be conditioned on registration will automatically receive a 10-year parts warranty. See warranty certificate at bryant.com for complete details.

Indoor Comfort Technology

- 1 ENVIRONMENTALLY SOUND**
Our Model FV4 fan coil is designed for use with Puron® refrigerant to provide years of environmentally sound, trouble-free performance.
- 2 ENHANCED COMFORT**
Our Thermostatic Expansion Valve (TXV) ensures proper refrigerant flow during fluctuating pressures and conditions for top reliability and energy-efficient operation.
- 3 HIGH ENERGY EFFICIENCY**
Variable speed ICM2 blower motor provides the ability to match airflow with the best combination of energy efficiency and comfort. Nearly continuous low-speed operation saves money and operates quietly.
- 4 LASTING LOOKS AND PERFORMANCE**
The sturdy, 20-gage cabinet is painted with a durable, scratch-resistant coating for years of corrosion-resistant good looks.
- 5 DURABILITY AND DRAINAGE**
The Preferred™ Series base pan is made of a high-tech, corrosion-free composite material. Integrated sloped drainage helps reduce build-up of mold, bacteria and other airborne pollutants.
- 6 LONGER LIFE**
Some models offer DuraCoat™, a special tin plating of the coil to reduce the threat of formicary coil corrosion.
